

RACHEL ADAMS

BESPOKE FLORIST

LIVE LIFE IN FULL BLOOM

We are a Bespoke Florist situated in the Heart of England providing floral creations that are very natural & contemporary in style. With an emphasis on simple yet wild arrangements where the foliage and blooms speak for themselves.

Influenced by our surroundings and adapting to the seasons, in consultation with you we create your vision using natural, beautiful and romantic flowers.

ABOUT ME

From a daisy chain to the installation of a floral display in a Stately Home, flowers have played a significant role throughout my life.

My studio is set within the beautiful countryside of rural Shropshire.

My floristry style is very natural and loose, I provide a bespoke service which brings the clients ideas to life. I love to invest valuable time in consultation with you, using illustrative digital mood boards and explaining the structure, look and feel of all the elements of your floral designs.

As part of the bespoke service that I provide I am florist to a number of high profile Corporate Clients providing displays for events and special occasions. I am also the preferred supplier for the Grade I Listed Georgian Stately Home and Wedding Venue, Davenport House in the village of Worfield.

LET YOUR DREAMS BLOSSOM

Creating bespoke floral designs for your Special Day is an exciting opportunity to turn your dreams into reality. Covering all aspects of floral design, we provide individual designs for your ceremony and reception as well as all the other little extras that make your day special to you.

We have an extensive range of urns, candelabras, vases, churns and window boxes at our disposal, we are constantly adding to the collection.

THE PROCESS

Fabulous customer service and building a great relationship with our clients play an important role in providing a bespoke service. Your ceremony and reception flowers should be the most spectacular flowers you've ever seen and we work hard to ensure that the highest levels of luxury are achieved to go beyond your imagination.

We will begin with an initial consultation where we will get to know more about you and your partner, what styles you like, the look of your ceremony and celebration, colour themes, the venue and what you envisage your special day to be like. We will talk you through the flowers in season for your special day and suggest flower choices to compliment you both, as a couple.

Finally, we will draw up a proposal that will summarise what we have discussed at the initial consultation. Once the booking is confirmed you can expect a highly efficient service from start to finish.

GET IN TOUCH

We provide a bespoke service from start to end – no matter what the venue or occasion.
